Guards Shot.  
About 50 raiders on horseback made a foray in the western part of Boyle county Saturday night last. At a gate near Perryville they were fired on by two guards, and a general shooting followed. Guard Thos. Middleton was seriously wounded, and guard Lynn Penny was shot in the arm. It is believed some of the raiders were wounded.

Sweet Bells In Tune.  
Mr. Walker W. Tevis formerly of Kinkville but now a resident of Flora, Ill., and Miss Una Tevis, of Holden, Mo., were married in Louisville, Ky., last Tuesday, March 23d. Miss Tevis is a beautiful and accomplished society lady, of Holden, Mo. She and Mr. Tevis have been sweethearts for a long time and their marriage did not surprise his most intimate friends here. When he left for the west sometime ago it was generally understood by his close friends that they were to be married soon. Mr. Tevis is now in business in Flora, Ill., where the happy pair will make their future home.

The marriage of Miss Pattie Gibbs Beazley, of this place, and Mr. John S. Baughman, of Danville, is announced to take place April 12th. Miss Beazley is an accomplished belle and a society favorite, her father was Elijah Beazley deceased and her mother, a daughter of the late Hillery Gibbs. Miss Beazley has always been one of the society leaders in this portion of the state, and has made many conquests by her winning ways.

Mr. Baughman is one of Boyle county's rising young men. He has for some time been a deputy sheriff and is one of the county's leading farmers. He has always been considered a splendid business man and has manifested extraordinary good taste in the selection of a life partner.

## ALL WAR TALK.

WASHINGTON, March 23, '98.  
If any one desires to hear "war talk" he should be in Washington just now. I have heard nothing else since arriving here to-day. The newspapers are issuing "extras" on every little piece of information received and the papers sell like hot cakes. The general impression is that war will be declared but just when, no one knows.

There is not likely to be much friction in Congress over the disposition of the Maine report when it comes to congress. There is considered to be no room for controversy over the matter. The suggestion that the minority are going to resist the report being referred to the foreign affairs committee is pronounced little short of absurd. The rule requiring reference to committee is imperative. The most insignificant thing has to go through the formality of reference to committee, and there is apparently no disposition to treat so important a question as this with less regard for the forms of procedure than is shown in dealing with minor matters. The suggestion that as result of the conference between the President and Speaker Read yesterday the House was to be held in check by the reference of the report is based upon a false assumption.

The sentiment of the House is very pronounced. Without reference to party or politics the desire is for action as speedily as the circumstances of the case admit of. It is naturally expected, therefore, that the committee will very soon after the message has been referred report back whatever action is deemed desirable. The House may or may not follow the committee. With the question once up the House may run away with it and take radical action, if the committee should not report a proposition that is satisfactory. This is mere speculation, however, since the Congress does not know what the report of the board of inquiry will disclose nor what the President will recommend. The committee will probably follow the President in whatever he recommends. Decisive action by the President is expected, and if this expectation is not disappointed there will be no friction over the question in Congress. There is a most decided opposition in both houses of Congress to anything like temporizing, and to any suggestion of arbitration or a proposition which involves the continuance of Spanish domination over any part of the Island of Cuba. The universal demand in Congress is for the relief of Cuba from the Spanish yoke and reparation (not indemnity) for the destruction of the Maine. If the course of the President departs widely from this policy no one doubts that there will be a disturbance in Congress, but it is not apt to be resolved into a party contention.

In such an improbable contingency it is thought that the friction would be between the President and practically the solid body of Congress. The sentiment is so strong that there seems no possibility that Congress will be content with a mild policy. There is a fixed purpose on the part of the leaders and the active men in all parties to hold themselves in restraint until the report of the Maine board has been made and then to give a reasonable time for action. Beyond this point there is no assurance that any sort of restraint will be possible.

The feeling that war is imminent is more general in Congress today than it has been before. From several conservative sources has come the assertion that the situation has assumed a graver aspect than at any time before and that war seems inevitable. The report comes from an administration source that the President is about to send to Congress a special message which will cause a sensation, clearing away all doubt that now surrounds the situation. This is represented as not being the message transmitting the report of the Maine court of inquiry, but one in advance of that, dealing with the general Cuban question. Of course a report of this sort cannot be verified but must be judged by its source.

In this case the source is good and has heretofore been reliable. The President sent for Senators Allison and Gorman today. This is the first time he has called a democrat into conference. Men who have been consulted or conferred with by the President are close-mouthed after talk with him, but there is no concealing that they are graver after the talk. Speaker Reed has determinedly refused to give information concerning his talk with the President, but men who have seen the Speaker are satisfied by his manner that he is not pleased with the situation and feels that a serious responsibility is being assumed by somebody for a very critical situation. It is said that he is evidently dissatisfied, but will not explain why. It is known only that he has never been in favor of war.

Members of the Kentucky delegation are slow to talk on the subject, but it is easy to see that deep down in their hearts they want a fight, and believe they will so vote if Congress ignores the President and takes action on its own accord. L. L.

Circuit Court.  
But little business has been done in Court since last issue.  
The Grand Jury adjourned Wednesday, after returning twenty-one indictments.  
James Whitaker charged with the murder of Jno. Grady, was acquitted. It being proved that he acted in self-defense.

Warning.  
The City Council of Lancaster, and the local board of health have issued an order requiring all persons coming from districts infected by small pox to show a health certificate, stating that they had been vaccinated within the past year. This is a good move, and we believe if every citizen will heed the warning and submit to vaccination we will escape this terrible epidemic. All persons who are unable to pay for this service will be vaccinated free of charge by the local board of health.

Small Pox at Richmond.  
Three of the pest-houses have been completed at Richmond, and a fourth is being put up. Tents have arrived from Frankfort for the use of guards. The first death from small pox reported is that of Sophia Walker, colored, who has been in a precarious condition for some time. There are no other cases considered necessarily fatal at present. ## Colin-Nail Law.

The following law, just passed by  
the legislature, goes into effect June  
13th:

"Be it enacted by the General As-  
sembly of the Commonwealth of Ken-  
tucky:

"First—It shall be unlawful for any  
person to sell, barter or loan or give,  
to make, fabricate or manufacture, to  
have on his premises, in his possession  
or under his control, a cigarette whet-  
ter made by hand or manufactured,  
whether it be made of tobacco or other  
substance, whether it be covered  
with paper or other material, it shall  
be unlawful for any person to give on  
his premises, in his possession or un-  
der his control, any substance or ma-  
terial out of which any part of such  
cigarette could be made with the  
knowledge or purpose that at any time  
such substance or material might be-  
come a factor or in such cigarette."

"Second—Any person who shall vio-  
late the law as set forth in the first  
paragraph of this act, or shall evade it  
by a trick, artifice or method whatev-  
er, shall, upon conviction, be fined not  
less than \$10 nor more than \$100, or  
imprisonment in the county jail for  
not less than five nor more than 30  
days, or both so fined and imprisoned  
in the discretion of the jury, and each  
violation or evasion of law shall be  
deemed a separate offense."

## How to Find Out.

Fill a bottle or common glass with  
urine and let it stand twenty-four  
hours; a sediment or settling indicates  
an unhealthy condition of the kidneys.  
When urine stains linen it is evidence  
of kidney trouble. Too frequent de-  
sire to urinate or pain in the back, is  
also convincing proof that the kidneys  
and bladder are out of order.

## WHAT TO DO.

There is comfort in the knowledge so  
often expressed, that Dr. Kilmer's  
Swamp-Root, the great kidney remedy  
fulfills every wish in relieving pain in  
the back, kidneys, liver, bladder and  
every part of the urinary passages. It  
corrects inability to hold urine and  
scalding pain in passing it, or bad ef-  
fects following use of liquor, wine or  
beer, and overcomes that unpleasant  
necessity of being compelled to get up  
many times during the night to urinate.  
The mild and extraordinary ef-  
fect of Swamp-Root is soon realized. It  
stands the highest for its wonderful  
cures of the most distressing cases. If  
you need a medicine you should have  
the best. Sold by druggists, price fifty  
cents and one dollar.

You may have a sample bottle and  
pamphlet both sent free by mail, upon

## Priceless Pain

"If a price can be placed on pain, 'Mother's  
Friend' is worth its weight in gold as an allevi-  
ator. My wife suffered more in ten minutes with  
either of her other two children than she did al-  
together with her last, having previously used  
four bottles of 'Mother's Friend'. It is a blessing  
to any one expecting to become a mother," says  
a customer.

Thus writes Henderson Dale, Druggist,  
of Carmi, Ill., to the Bradford Regulator  
Company, of Atlanta, Ga., the proprie-  
tors and manufacturers of "Mother's  
Friend." This successful remedy is not  
one of the many internal medicines ad-  
vertised to do unreasonable things, but a  
scientifically prepared liniment especially  
effective in adding strength and elasticity  
to those parts of woman's organism which  
bear the severest strains of childbirth.

The liniment may be used at any and  
all times during pregnancy up to the  
very hour of confinement. The earlier it  
is begun, and the longer used, the more  
perfect will be the result, but it has been  
used during the last month only with  
great benefit and success.

It not only shortens labor and lessens  
the pain attending it, but greatly dimin-  
ishes the danger to life of both mother  
and child, and leaves the mother in a con-  
dition more favorable to speedy recovery.

"Mother's Friend" is sold by druggists  
at \$1.00, or sent by express on receipt of  
price.

HOWARD GOULD was elected to mem-  
bership in the New York Stock ex-  
change a few days ago. The privilege  
cost him about \$21,000. It is not ex-  
pected that he will become an active  
broker, but that he sought mem-  
bership so he could buy and sell his own  
securities at brokers' rather than cus-  
tomers' commission. The outsider  
must pay one-eighth of one percent  
to brokers as commission, but members  
of the exchange pay to another broker  
only \$2 for each 100 shares of stock  
handled. Though Howard Gould is  
not a speculator, he deals in securities  
sometimes owned by himself.

THE most powerful locomotive in

sions of this gigantic machine are:  
Weight, 212,750 pounds; cylinders, 21 by  
34 inches; driving wheels, 55 inches in  
diameter; working boiler pressure, 210

of the former popular 15 by 22 inch lo-

level track.
